Preferred Portfolio Management Approach

When it comes to managing an investment portfolio, there are several different approaches that can be taken. Some approaches require more ongoing input from the investor than other options. Neither option necessarily results in a better or worse return. It is more to do with managing your portfolio in a manner you are most comfortable with. Some investors like to be more involved in the decision making process on a regular basis than others.

When it comes to managing your portfolio, what approach would you prefer:

- ☐ A “hands on” approach with *constant* ongoing involvement ie including direct shares within the portfolio ie “*We do it with you*”.
- ☐ A “hands on” approach with *occasional* ongoing involvement ie including single sector managed funds and/or Separately Managed Accounts (SMA's) within the portfolio. In this situation, we would manage your asset allocation with you, whilst professional fund managers would manage your investments for you.
- ☐ A “hands off” approach with *minimal* ongoing involvement ie “*We do it for you*”.

Environmental/Ethical/Social Responsible Investment Preferences

Some investors have a preference to limit their investment selection to environmental, ethical and/or socially responsible investment funds and/or direct assets.

Select which one of the following two options applies to you:

- ☐ 1) **I DO NOT** wish to limit my investment selection to environmental, ethical and/or socially responsible investment funds and/or direct assets. *If this option is selected, no further action is required. Please move to Product costs, features and benefits.*

OR

- ☐ 2) **I DO** wish to limit my investment selection to environmental, ethical and/or socially responsible investment funds and/or direct assets. I understand this requires a blend of single sector managed funds, which may be more expensive than traditional managed funds.

Specifically, I would like the following limitations to apply:

- ☐ Environmentally Responsible funds and/or direct assets
- ☐ Ethically Responsible funds and/or direct assets
- ☐ Socially Responsible funds and/or direct assets

Additional Information

Client/s to outline their specific requirements and/or limitations here:

Product costs, features and benefits

Please indicate any preferences you have in relation to product costs and features/benefits, keeping in mind there may be a trade-off between the two.

For example, some clients prefer products offering limited features and benefits (sometimes at lower cost), whilst others prefer products offering more features and benefits (sometimes at greater cost).

In relation to product costs ie fund manager and administration expenses, which of the following options would you prefer:

1. ☐ A low cost option, with limited features and offering minimal investment choice. *This option can be of appeal to clients with both smaller and larger investment and superannuation portfolios.*
2. ☐ A more expensive option maximising features and providing the broadest investment choice. This can include direct assets ie direct equities, property & corporate bonds where applicable. *This option is generally of greater appeal to clients with larger account balances as fees are generally reduced by fund managers and investment/superannuation platforms for larger portfolios.*
3. ☐ A mid-range option, offering a mixture of features and benefits from the above 2 options, but with less investment choice than option 2.
4. ☐ I don't have any preferences

Product costs and features/benefits

Note any product features or benefits that are valued or wish to be retained by the client(s)?

If there is another product that will better help the client(s) meet their needs and objectives, would the client(s) be prepared to pay extra for these features and benefits?

Professional advisers

In order to prepare your Statement of Advice (including a Financial Plan) we may need to contact some of your existing advisers to obtain more information about your particular situation.

Existing Adviser	Name	Contact Number	Company Name
Accountant	_____	_____	_____
Solicitor	_____	_____	_____
Stockbroker	_____	_____	_____

How would you like us to work with these other advisers, if at all?

The Information Release Form attached at the end of this questionnaire will need to be completed to enable us to gain access to your information, held by any of the above advisers. Please note that if there are any costs associated with obtaining information from any of the above advisers, we reserve the right to pass these costs onto you as the client.

Determining your investment risk profile

When investing, it is important you consider the level of risk as well as the return on an investment in view of your circumstances and investment goals. Risk means different things to different investors. For some, investment risk means the likelihood of a loss of capital, while for others it is the level of volatility of an investment, or the risk of an asset not producing enough to live on.

This Investment Risk Profile questionnaire has been designed to assist you in making an investment decision. It asks some questions regarding your goals, time frames and comfort with investments to help provide a guide to your investor profile. Your investor profile then *suggests* a benchmark asset allocation for your investments. In conjunction with our discussions pertaining to Investment Volatility (immediately following completion of the below 7 questions), we can then agree on a suitable investment risk profile. Please complete the questions below by choosing the answer which most closely describes you.

1. For how long would you expect most of your money to be invested before you would need to access it?

Investor Profile	Benchmark Asset mix**
Ultra Conservative “Cash” (0-100 Points) May be suitable for investors with a short-term investment horizon or a very low tolerance for risk, seeking a return similar to cash rates.	
Very Conservative “Fixed Interest” (101-140 Points) May be suitable for investors with an investment horizon of at least 3 years and a low risk tolerance, seeking higher than cash returns over the investment timeframe.	
Conservative (141- 170 Points) May be suitable for investors with an investment horizon of at least 3 years and a low to moderate risk tolerance, seeking regular income and the opportunity for some growth over the investment timeframe.	
Moderate (171-200 Points) May be suitable for investors with an investment horizon of at least 3-5 years and a moderate risk tolerance, seeking a mix of income and growth over the investment timeframe from a well-diversified portfolio. This strategy suits investors aiming for a return higher than what is likely from a portfolio dominated by defensive assets but who want lower volatility than what a share fund would likely generate.	
Balanced (201-250 Points) May be suitable for investors with an investment horizon of at least 5 years and a moderate risk tolerance, seeking more growth than income over the investment timeframe. This strategy suits investors aiming for a return higher than what is likely from a more defensive portfolio but who want lower volatility than what a share fund would likely generate.	
Growth (251- 300 Points) May be suitable for investors with an investment horizon of at least 5-7 years and a moderate to high risk tolerance, seeking a high exposure to growth assets.	
High Growth (301-350 Points) May be suitable for investors with an investment horizon of at least 7 years and high risk tolerance, comfortable with a share portfolio dominated by Australian and international shares.	

** This demonstrates the benchmark Defensive/Growth asset mix for each investor profile. Defensive assets, such as cash and fixed interest are expected to grow at a slower rate over the longer term but are expected to experience less volatility. Growth assets, such as property and shares have historically grown at a rate greater than inflation over time and usually produce higher returns than defensive assets but can also demonstrate greater volatility in the short term.

Option to Quote Tax File Number

Most investment bodies and superannuation bodies² ask their customers to provide Tax File Numbers (TFN). This form explains the reasons why they do. As you will be receiving ongoing service from **Oreana Financial Services** we offer you the option of authorising **Oreana Financial Services** to:

- a) hold your TFN, and/or details of your exemption status, in our records; and
- b) disclose your TFN to authorised bodies in connection with your current or future investments.

Why investment and superannuation bodies ask for your TFN

You are not required to provide us or any other body with your TFN and it is not an offence if you choose not to do so. However, if you do not quote your TFN or exemption status to an investment body, superannuation body or approved deposit fund (as applicable):

- tax will be deducted from your income distributions at the highest marginal rate;
- you may pay more tax on your superannuation benefit than you have to (you will get a refund at the end of the financial year in your income tax assessment);
- your super fund is generally required to reject your non-concessional (after-tax) contributions;
- your concessional (pre-tax including employer) super contributions may be taxed at 46.5%; and
- it may be more difficult to find your superannuation benefits if you change address without notifying your fund, or to amalgamate any multiple superannuation accounts.

You may be exempt from the TFN quotation requirements

Some persons/entities are exempted from the TFN quotation arrangements, if the exemption status is notified to the investment body:

<ul style="list-style-type: none">Persons receiving any part of an age, service, widow pension or other types of qualifying pension/benefit	<i>state type of pension/ benefit received.</i>
<ul style="list-style-type: none">Children under the age of 18, where the investment is NOT public company share/s and the income will be less than \$417 pa	<i>state age.</i>
<ul style="list-style-type: none">Entities not required to lodge income tax returns	<i>state reason not required to lodge return.</i>
<ul style="list-style-type: none">Non-residents	<i>state country of residence.</i>

You can authorise us to hold and disclose your TFN

Taxation laws generally prohibit the collection, use and disclosure of TFNs. However, an investment body may be informed of a TFN by a person acting on behalf of another person.

If you do not provide us with your TFN and you wish to quote your TFN on investment and/or superannuation application forms, you will need to bring your TFN with you when calling into our office to complete these documents.

² In the case of loans or deposits, financial institutions, governments and bodies corporate are 'investment bodies'. 'Investment bodies' also include managers of unit trusts, and companies. Superannuation trustees and approved deposit funds are authorised to collect TFNs under superannuation law. This is for purposes including paying out monies and identifying and consolidating superannuation benefits.

Your Election

Please record your TFN, and/or exemption status, at the bottom of this page.

I instruct **Oreana Financial Services** to hold my Tax File Number in their records. I authorise **Oreana Financial Services**, or other recipients approved by **Oreana Financial Services**, to disclose my TFN, or exemption status, to me, the Australian Taxation Office, investment bodies, superannuation bodies, and approved deposit funds.

I acknowledge that:

- I have read and understood the information above; and
- this authority will remain in force until cancelled by me in writing.

If signing under Power of Attorney, I certify that I have not received notice of revocation of that Power.
